Keep yourself on top of things with it's << *wildcard* **Keyword** >> search facilities !!!

Tracks and Reports on
**Fleet/Equipment
Costs
& Repair History**

Keeps on top of
Equipment Maintenance
by providing

**Maintenance &
Compliance Program
Alert(s)
for due to perform**

and

**Warranties Alert(s)
for upcoming Expirations**

by the recording of

**Meter Readings,
Work Pendings,
Fuel Tickets
& Work Orders.**

Meter Readings

- Allows for the recording of equipment meter readings (i.e. engine hours, odometer, etc) for Alerts facilities.
- Readings may be entered @ Fuel Tickets or @ Work Orders or @ any point in time.

Work Pendings

- @ **Fueling**, or @ **Repairing** or @ **any point in time**; note and record items about the Unit/Equipment which should be reviewed at next point of Service/Repair/Maintenance session.

Fuel Tickets

- Records Fuel and Fluids consumption and record any "Work Pending(s) which are noted.

Work Orders

- Records **Parts & Labour** and **Fuel & Fluids** consumption, status of "**Work Pending(s)**" and status of **Preventative Maintenance** programs which were "Due" at Work Order time. Parts prices entry is optional but allows for "costing" along with unit repair "history".
- Allows for **In-House** or **External** sourced Work Orders using Inventoried or Non-Inventoried parts.

Alerts & Forewarnings for

- based on User defined Alert Terms

Maintenance Programs

- based on User defined Alert Terms
- build Job(s) list for each Maintenance program.

Warranties
